Email: kanikaprajapati902@gmail.com

Phone: +91-6263555095

EDUCATION

Year	Degree/Certificate	Institute	Grades
2021-2025	B.Tech. Computer Science and Engineering	Indian Institute of Technology (BHU), Varanasi	8.83/10
2021	CBSE (XII)	Bhartiyam Vidya Niketan, Gwalior	96.4%
2019	CBSE (X)	Excellent Circle Of Studies, Gwalior	96.4%

SKILLS

Languages:	C++, Python, SQL, Java
Backend:	Spring Boot, REST APIs, GraphQL, Microservices, CI/CD
Cloud and Databases:	AWS (Lambda, S3, DynamoDB, SQS, SNS, EventBridge Scheduler)
Tools:	Git, Linux, Maven
Core:	Data Structures, Object-Oriented Programming, Operating Systems, Database Management

EXPERIENCE

• Software Engineer 1, Intuit

Aug, 2025 - July, 2026

- Increased **load-handling capacity** by **27%** with **AWS S3** caching layer, eliminating **DynamoDB hot-partition** bottlenecks.
- Contributed to migration of **5,000+ legacy web pages** while preserving feature parity and reducing authoring overhead.
- Authored **LLDs** and implemented key migration **features**, enabling scalable and maintainable implementations.
- Enhanced **SQS/Scheduler-triggered Lambda** workflows to generate **S3 snapshots**, **reducing page failures by 90%**.
- Built an **API for IXP/PZN page-variant generation**, automating content combinations and streamlining content preview.
- Enhanced **AI-powered validation** to detect **visual discrepancies** across migrated pages, reducing manual effort by **50%**.
- Performed load and **chaos testing** with **Gatling** to validate microservice reliability under high traffic.
- Actively handled **on-call** incidents and monitored **Kubernetes pod deployments** and lifecycles through Argo CD.

• Software Engineering Intern, Intuit

May, 2024 - Aug, 2024

- **Automated** an onboarding workflow using **Spring Boot**, **reducing SLA from 2-3 days to near real-time**.
- Built **status-tracking APIs** to improve request visibility and streamline onboarding operations.
- Optimized **DynamoDB query** through **global secondary index** design for retrieving pending requests.
- Implemented **event-driven state transition logic** for critical payload updates.
- Developed **JUnit 5** and **Mockito** unit tests, achieving **100% code coverage** across critical service modules.

PROJECTS

• Coding Interview Agent

- Built a **multi-agent LangGraph workflow** with specialized agents for hints, evaluation, and complexity analysis.
- Implemented **ChromaDB-based RAG** over DSA concepts and coding patterns for **context-aware feedback**.
- Integrated **Ollama API** for local LLM inference and agent orchestration.

Exposure: LangGraph, Ollama API, ChromaDB, Multi-Agent Workflows

• Task Scheduling using Archimedes Optimization Algorithm

- Executed AOA in **CloudSim** for dynamic task allocation in complex **distributed systems**.
- **Reduced scheduling makespan by 30%** by optimizing virtual machine (VM) utilization.
- **Co-authored a research paper** validating resource efficiency metrics.

Exposure: CloudSim, Cloud Computing, Distributed Systems, Resource Scheduling

• Predicting metallic glass forming ability through characteristic temperatures

- Built **stacking-based meta-models** and **ensemble classifiers** for metallic glass forming ability prediction.
- Applied **ensemble methods** over the classification dataset and obtained an **F1 score of 0.84**.

Exposure: Python, Scikit-learn, Ensemble Learning (Random Forest), Stacking Meta-models

• Inventory Management System

- Built a **Spring Boot** backend for inventory and order management across multiple warehouses.
- Designed **REST APIs** for stock updates and order processing with **MySQL** integration.
- Implemented low-stock alerts and optimized database queries, **reducing response time by 35%**.

Exposure: Java, Spring Boot, MySQL, RESTful APIs

AWARDS AND ACHIEVEMENTS

- Secured 98.9 percentile and All India Rank **2065 (OBC-NCL)** in **JEE (MAINS) 2021**.
- Secured All India Rank **4281** in **JEE (Advanced) 2021** among more than 2,00,000 shortlisted students.
- Achieved **Specialist** rating on Codeforces and solved **1,000+ coding questions** on all platforms.
